

Dufferin Parent Support Network presents....

Michael Reist, B.A., B.Ed., M.A.(T).

Boys and Girls Learn Differently

*In an entertaining and enlightening workshop,
Learn How Gender Differences Influence
Learning and Behaviour*

This is a "must-see" workshop for those in the helping professions and for parents in general. If you're a nurse, health care provider, social service provider, child care provider, educator, counselor or individual involved in helping others on a daily basis, this workshop is sure to be of interest.

Highlights

- ◆ Understand how boys' brains and girls' brains develop and operate very differently.
- ◆ Current brain research reveals fascinating differences between the way males and females think and communicate.
- ◆ The implications for teaching and raising boys and girls.
- ◆ Consider your role in helping them learn.

*To register, please e-mail us at
