What You Can Do About Being Bullied

Bullying is scary and embarrassing. You may feel as if it's your fault. It's not. There are things you can do to make the situation better. Here are some tips:

- ▶ Stay calm and don't act upset or angry. You may love to get a reaction. Practise what you want to do next time it happens. If you don't react the way they want you to, they will get bored and stop.
- ▶ Don't fight back. If you fight back, you may make the situation worse, get hurt or start starting the trouble.
- ▶ Try to withdraw from the situation. Don't join the bullying or say "no" really firmly and then walk away calmly. It's very hard for someone on bullying someone who won't stand up for themselves.
- ▶ If it's either you or your stuff, give it up. Things can be replaced - you can't.
- ▶ Avoid being alone as much as you can. Whenever possible, travel with other people to school and to special school events.
- ▶ Don't be afraid to tell an adult you trust. They don't have to let them take over. Talk to them about what you would like to happen.

Most of all, don't give up. Being bullied can make you feel really bad about yourself and discouraged. This is exactly what the bullies are hoping for. If you give in, they will take advantage of you in different ways. If you are feeling like this, talk to someone. Kids Help Canada at 1-800-668-6868 is always confidential.
